

Jersey City Squadron Officers Attend Corporate Learning Course

This past weekend, five senior officers of the Jersey City Composite Squadron traveled to McGuire AFB to attend the Corporate Learning Course. Their members learned about the relationship of the CAP squadron with the wing. They received an in-depth look at how the two levels interact with each other to further fulfill CAP's missions of Aerospace Education, Emergency Services and Cadet Programs. Over the course of two days, officers heard from numerous speakers, shared ideas with members of other squadrons in the wing and gained further understanding of their individual roles in CAP. The course ended with Wing Commander, Col. Robert McCabe along with Capt. Paul Bolognone presenting members with a certificate. Congratulations to Capt. Gilberto Sanchez, 1Lt. Eva Garcia, Manuel Martinez-Ponz, Eric Santos, and 2Lt Jorge Ramos as well as all other students!
